

CERTIFICATE

Magnus Ögren
Lund University

Has successfully participated in the NORDITA Masterclass in Physics
held July 19 – 27, 2002.

The school contained courses on the subjects:

- *General Relativity to the Cosmic Microwave Background*, Professor Kandaswamy Subramanian (Inter-University Centre for Astronomy and Astrophysics, Pune)
- *Random Polymer Networks and Gelation* by Professor Annette Zippelius (Institut für Theoretische Physik Georg-August-Universität Göttingen)
- *Strings, Branes and Black Holes* by Professor Larus Thorlacius (Science Institute University of Iceland)
- *Quantized vortices* by Professor Carlo Barenghi (Department of Mathematics University of Newcastle)

Copenhagen, July 27, 2002

Axel Brandenburg
Director of the Masterclass
